

DURATECH
INDUSTRIES

FUNCTIONAL/ DECORATIVE LABELS

Label Solutions

DuraTech Industries specializes in both decorative and functional labels and graphic overlays that can be used to either promote your brand, enhance the appearance of your product, draw attention, or warn an operator of a potential hazard. Our team will work with you to customize your labels to your unique requirements, using our attention grabbing effects and endless choices of color; giving your parts the image and durability they deserve.

Working with design engineers, marketing and purchasing in the automotive, industrial, medical, appliance, computer and electronics industries at the development stages of a project ensures the best design considerations.

With our team's industry knowledge, and continuous development of label design and technology, we will utilize the best and most cost effective printing method and materials for your application, including label constructions that can meet UL and CSA requirements.
