

## The Right Label For Your Needs

DuraTech offers more printing and identification solutions through flexographic printing. This compatible printing alternative is designed to meet the high volume demands of a variety of end-user markets including the industrial, health and beauty, beverage and pharmaceutical segments.

Flexographic produced products can be formatted to match production application requirements whether it is roll, sheet, strip, individual or pin fed. The wide array of colors, materials and finishes extend the flexibility of this process. It is a viable choice for roll labels, tags, consecutive numbered bar codes and thermal transfer labels. UL and CSA approved constructions are also available.

Applications that require a flexible, economic and high-quality process should consider the total cost advantages related to flexo's one-pass printing, processing and finishing capabilities.

## MATERIALS AVAILABLE

Paper (various finishes)  
Polyester (white and clear)  
Polypropylene  
Tyvek  
Vinyls

### Adhesives

Cold/High Temperature  
Tire label  
Low/High Surface Energy  
Removable

### Lamination Constructions

Acetate  
Polycarbonate  
Polyester  
Polypropylene  
Finishes include matte, gloss, textured and semi-gloss. Five (plus) year texture polycarbonate also available.

UV inks

3" and 1" cores available

### Tolerances

+/- .015" graphic to die cutting  
+/- .010" die cutting

### Color Matching

Pantone Match upon request

## PRODUCTS OFFERED

Roll labels  
In-mold labels  
Pressure sensitive labels  
Hang tags  
Pin-fed and sheeted labels  
Office supplied labels  
Laser printable labels  
Shipping and box labels  
Thermal Transfer labels (TT)  
Consecutive numbered and bar code labels  
Two-sided printing  
Full line of non-pressure sensitive stocks

## PROCESS CAPABILITIES

4-Color Process  
Gloss & matte UV coatings/Thermal transfer coatings  
UV inks for durable outdoor applications  
UL/CSA approved constructions  
Die cutting  
Slitting  
Folding and fan folding  
Punching and drilling  
Laminating

## DESIGN SUPPORT

Full design support staff

## DELIVERY

Single, blanket or multi-release orders

## VALUE-ADDED

Alliance partnerships  
EDI capable  
Participatory management philosophy  
Supplier managed inventories  
Quick turn on most stocked materials
